

Eastern Sierra Fish Camp

July 22-July 25

Come join fishmeisters Mike Giusti and Paul Wisheropp to fish small streams and lakes in the Eastern Sierra. The fish camp consists of small groups to fish the streams and lakes near Lee Vining CA. We have arranged several campsites at Lower Lee Vining campground as the basecamp. For the two full days, we will lead small groups to fish streams or lakes (or both). We will introduce you to the types of flies and how to fish the water. We will have a planning session in May to gauge interest and determine destinations. Respond directly to Mike or Paul if you are interested in Fish Camp and can attend the planning session. Note: hiking to destinations is a part of the trip. Hikes will be of easy-moderate difficulty.

If you want additional days you may also come up before the 22nd because we will be holding the campsites starting on 7/20. Also, if there is interest in a guided trip for fishing Lake Crowley that can be arranged but it will have an additional cost based on the number of people that want to take advantage of this opportunity. We could possibly do a float tube trip on Crowley for those interested in that option.

P.S. If you don't like to camp you can arrange your own accommodations in Lee Vining or Mammoth Lakes and meet us at the campground each morning.

Our planning meeting in May will help us refine the options and so we can accommodate as large a number of club members as possible.
