Description: The casting clinic/mentor outing will help beginning fly fishers learn the mechanics of casting and allow ample time to practice this essential skill on the grass. Instructors and experienced fly casters will help you develop the process to make a roll cast and a closed loop cast. Afterward, novices will practice casting and fishing on the water. This covers additional skills such as: locating fish, setting the hook, stripping line, playing a fish, netting and safely releasing fish. Mentors will be there to help you.
